No. 2, Lorong Irama 2, Jalan Baru,  
13700 Perai, Penang.**

Moderator: **Ir Wong Jian Choon**

Mobile: 016-477 5227

No. of Participants: **25 pax**

## Synopsis

Yongyang Sdn Bhd is one of the Registered Photovoltaic (PV) Service Provider under Sustainable Energy Development Authority (SEDA). In their business office located in Perai, Penang, there is a roof top solar system installed to generate from solar energy to electricity for their office power supply usage.

There is a display hall to give a brief presentation on the equipment & device to be installed for the solar system. First, the participants will be introduced and explained on the solar system industry background, the challenge of the solar system, government policy implementation and briefly design/installation of the solar system.

Then, the participants will be invited to visit the roof top and see the exact solar system installation. Also, participants can also visit their remote monitoring system on the real time condition of the roof top solar system, which is the electricity generated, the PV panel temperature, the sun irradiation and etc.
