Passcode: 728015

Speaker:

Dr Timothy Wong Leong Wei

Synopsis

Foreign bodies in ear, nose and throat are among the more common cases seen by ORL/ENT doctors daily. This scenario can be just a minor discomfort to patients but can also be life threatening in certain cases.

The aim of this talk is to expose participants to the cases which ENT doctors usually see daily and what to do when one encounters this kind of cases. The talk also would like to highlight on possible emergency scenarios which one should anticipate.

About the Speaker

Dr Timothy Wong Leong Wei graduated with a Medical Degree (MD) from Universiti Malaysia Sabah (UMS) in year 2011. He subsequently served in various health facilities under the Ministry of Health.

In 2016, he continued his postgraduate specialty training in Masters of Otorhinolaryngology, Head & Neck Surgery in Universiti Kebangsaan Malaysia (UKM).

He is currently serving as a senior lecturer at the Faculty of Medicine & Health Sciences, Universiti Malaysia Sabah (UMS) as well as an ORL surgeon practicing in Queen Elizabeth Hospital and Sabah Women & Children Hospital in Kota Kinabalu, Sabah.
