FREE ADMISSION
For Corporate & Fellow Members

Speaker:
Ir. Dr. Mui Kai Yin

Moderator:
Ir. Chan Wah Cheong

This workshop was co-organized between IEM Penang Branch, IEM Electronic Engineering Technical Division, & IEM Material Engineering Technical Division.

Synopsis

The objective of conducting this workshop is in line with the requirement by the IEM Professional Interview Board that all existing Interviewers are required to attend Refresher Course on Outcome-Based Professional Interview process every 3 years. Apart from this, we also encourage and welcome more IEM Corporate Members to train as Interviewers.

The Refresher Course gives an improved version of the existing Professional Interview in that it assesses competency based on evidence; and uses marking rubrics to minimize subjectivity in assessment. The revised process is closely referenced to the UK Standards for Professional Engineering Competence (UK-SPEC) for Chartered Engineers.

This 1-Day training and certification workshop will cover the following learning modules.

- Module 1: Introduction
- Module 2: PI Competency Standard
- Module 3: Rubrics - Descriptor / Interpretation
- Module 4: PI Report and Rules
- Module 5: Application Document
- Module 6: Professional Interview
- Module 7: Workshop Summary
