EVENT SYNOPSIS:

Western Digital, a global leader in data storage solutions, thrives on the power and potential of diversity. Believing in the effectiveness of mirroring the diversity of customers and communities from within, Western Digital has established itself as a beacon of innovation in the digital storage industry. From pioneering the invention of the first hard drive to driving recent advancements in 3D NAND technology, Western Digital's journey of innovation continues to inspire those who dare to think big.

EVENT OBJECTIVES:

-  **Innovation Showcase - Western Digital's history of innovation.**
-  **Facility Tours - Get an inside look at Western Digital's manufacturing plants and research labs.**
-  **Interactive Sessions - Engage with Western Digital's experts in topics such as technology trends and career opportunities.**
-  **Networking Opportunities - Connect with fellow young engineers and industry professionals during the visit.**
